**Discharge Monitoring Report for September 2019
(Permit No. 2015-EP-59681-1)
Pump and Treat System
Crab Orchard National Wildlife Refuge, Marion, Illinois**

Dear Sir or Madam:

AECOM, on behalf of the United States Fish and Wildlife Service (USFWS), is submitting the attached September 2019 Discharge Monitoring Report (DMR) for the subject treatment system located on the Crab Orchard National Wildlife Refuge (CONWR) in Marion, Illinois. This DMR has been prepared as required by the Permit to Construct, Own, and Operate (Permit No. 2015-EP-59681-1), dated April 28, 2017, for discharge to the City of Marion, IL publicly owned treatment works (POTW). Discharge of the treated effluent of the Pump and Treat System to the Marion POTW commenced on May 4, 2011. For the month of September 2019, the system operated the full duration of the month. However, data from 9/23/19 to 9/30/19 were lost due to a technical issue with the system's router. Flow rates and daily totals for this period were extrapolated and estimated from data received once the system's telemetry capabilities were restored. The enclosed discharge summary was used to prepare the DMR.

Please contact Mr. Andy Day (314.429.0100) with any questions.

Sincerely,

Andy Day
Environmental Scientist
